

FREE Hands-On Science Programs for Students

Comments from last year's participants:

- "The instructors' knowledge and skills were amazing." -5th grade teacher
- "This was my favorite program to visit our school." -5th grade student
- "I learned so much about mosquitoes today!" - 4th grade student
- "It was perfect! I love it and the kids love it." -5th grade teacher
- "This was wonderful. We lack hands-on activities at our school, so this program is always enriching." -4th grade teacher

More than 20,000 students have enjoyed our programs!

Three science-packed programs to choose from:

THE VECMOBILE PROGRAM

5th grade

- 🔍 On-site 35-foot mobile mosquito lab with interactive computer lessons, live specimens, and hands-on projects
- 🔍 Exploratorium Research Center with live and dead insect displays and interactive games

VECTOR INSPECTOR ACADEMY

4th-6th grade

- 🔍 On-site, hands-on classroom instruction covering mosquito anatomy, metamorphosis and mosquito control

DISTRICT FIELD TRIP PROGRAM

5th grade- Adult

- 🔍 Held at district headquarters in Santa Fe Springs
- 🔍 Education Program Coordinators guide students through hands-on activities and demonstrations
