

# Which Insect Repellent is Most Effective Against Mosquitoes?

Effective and long-lasting repellent contains one of the following EPA-registered active ingredients:

**DEET**

**OIL OF LEMON  
EUCALYPTUS**

**IR3535**

**PICARIDIN**

In addition, choose repellents based on these factors:

- Length of time you need protection
- Insects from which you want protection
- % active ingredient as listed on product label

**Always read and follow label directions when applying repellent.**
