INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Greater Los Angeles Mosquito and Vector Control
Public Health and Educational Foundation
Santa Fe Springs, California

We have audited the accompanying financial statements of Greater Los Angeles Mosquito and Vector Control Public Health and Educational Foundation (the "Foundation") as of and for the year ended June 30, 2012, which comprise the Foundation's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Greater Los Angeles Mosquito and Vector Control Public Health and Educational Foundation, as of June 30, 2012, and the respective changes in financial position, and cash flows, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Foundation's financial statements as a whole. The schedule of functional expenses is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.
